पवनः पवतामस्मि रामः शस्त्रभृतामहम्।
झषाणां मकरश्चास्मि स्रोतसामस्मि जाह्नवी॥

among things that purify,
I AM THE WIND
of the wielders of weapons,
I AM RAMA
of the water creatures,
I AM THE CROCODILE
and of rivers,
I AM GANGA

Major Tributaries of The GANGA

Benifits for Indian Society

Water Resources

It is the primary source of water for drinking, irrigation, and industrial purposes. The basin supports the livelihoods of millions of people.

- **Agriculture**

The fertile soil deposited by the Ganges River makes the basin one of the most productive agricultural regions in India. It supports the cultivation of crops like rice, wheat, and sugarcane.

- **Biodiversity**

The basin is home to a wide variety of flora and fauna, contributing to the region's biodiversity.

- **Culture and Religious Significance**

The Ganges River is considered sacred in Hinduism and is worshipped as the goddess Ganga. Many religious rituals and festivals are centered around the river.

- **Economic Importance**

The river serves as a major transportation artery, facilitating trade and commerce in the region.

- **Historical Significance**

The Ganga Basin has been the cradle of several ancient civilizations and has played a crucial role in the history and development of the Indian subcontinent.
